

Awards and Certifications

Ping Identity Excellence Award | Capital One TechX Finalist | UC Berkeley Fung Alumni Award
Ping Identity Certified Professional – Ping Federate | AWS Certified Solutions Architect | CompTIA Security+

Technical Skills

JavaScript | React | Redux | Lit | RxJS | Web Components | Python | FastAPI | DevOps
Webpack | TypeScript | Quality Assurance | AWS | MicroServices | MicroFrontend | APIs | SDKs
OAuth2 | OpenID Connect | SAML | FIDO2 | Authentication | Authorization

Experience and Education

Capital One

Feb 2019 – Present | McLean, VA | Full Time

Developer Academy → Associate Software Engineer → Senior Software Engineer

- ⊕ Developed and deployed full stack application components in Amazon Cloud (Python, Javascript).
- ⊕ Led an award winning deployment of PingFederate in Amazon Cloud.
- ⊕ Led an exploratory StrongKey FIDO2 Server (SKFS) deployment in Amazon Cloud.
- ⊕ Cut cost of delivery for Single Sign On infrastructure by over 70%.
- ⊕ Provided integration support and on-call incident response.
- ⊕ Drove adoption of authentication best practices for over 1100 business applications.
- ⊕ Drove adoption of devops, source control, and AWS well-architected framework.
- ⊕ Facilitated teamwork and collaboration around key technical issues.

Clover Health

Aug 2018 – Jan 2019 | San Francisco, CA | Full Time

Data Operations Coordinator

- ⊕ Investigated and resolved provider data quality issues, increasing trust and reliability.
- ⊕ Drove understanding of provider data models by actively participating in review sessions.

UC Berkeley

Jun 2017 – Jun 2018 | Berkeley, CA | Full Time

Master of Engineering, Industrial Engineering and Operations Research

- ⊕ Completed interdisciplinary team projects in business and engineering.
- ⊕ Completed coursework in data science, probability, and optimization analytics.
- ⊕ Worked to improve detection of arrhythmias in electrocardiogram data.

UC Santa Barbara

Jun 2014 – Jun 2016 | Santa Barbara, CA | Full Time

Bachelor of Science, Statistical Science

- ⊕ Completed core coursework in probability modeling, statistical data analysis, and experiment design.
- ⊕ Completed elective coursework in data mining, time series, formal languages, and graph/network theory.
